

**Amendments to Claims:**

The following listing of claims replaces all prior versions and listings of claims in the application.

**Listing of Claims:**

- 1-12. (Cancelled)
13. (Currently Amended) A chamois, comprising:
- a first cloth layer;
  - the first cloth layer being relatively elastic; ~~and having a garment-facing side;~~
  - a second cloth layer;
  - the second cloth layer being relatively elastic and having at least one relatively inelastic portion; ~~the second cloth layer having a body-facing side;~~
  - a first continuous foam layer;
  - the first continuous foam layer coupled to the first cloth layer; ~~and including a garment-facing side contacting a body-facing side of the first cloth layer;~~
  - the first continuous foam layer located between the first cloth layer and the second cloth layer ~~and contacting the first cloth layer and the second cloth layer;~~
  - the first continuous foam layer being relatively elastic such that the chamois stretches;
  - at least one foam pad coupled to the first continuous foam layer; and
  - the at least one foam pad ~~being coupled to the first foam layer and positioned between the first continuous foam layer and the second cloth layer;[[,]]~~
  - the at least one foam pad contacting the first continuous foam layer and contacting the second cloth layer;
  - the first continuous foam layer interposed between the first cloth layer and the at least one foam pad to prevent contact between the at least one foam pad and the first cloth layer; and including a garment-facing side contacting a body-facing side of the first foam layer and a body-facing side contacting a garment-facing side of the second cloth layer;
  - the at least one foam pad substantially aligned with the at least one relatively inelastic portion of the second cloth layer, such that the at least one foam pad is inhibited from stretching.

14. (Currently Amended) The chamois of claim 13 ~~[[58]]~~, wherein the at least one foam pad is relatively inelastic.

15. (Original) The chamois of claim 13, wherein the at least one foam pad is elastic.

16. (Currently Amended) The chamois of claim 13 ~~[[58]]~~, wherein at least the second cloth layer contains an anti-microbial material.

17. (Original) The chamois of claim 13, wherein the first cloth layer comprises a relatively inelastic portion substantially aligned with the at least one foam pad.

18. (Currently Amended) The chamois of claim 14, wherein the at least one foam pad is relatively denser than the elastic first continuous foam layer.

19. (Currently Amended) The chamois of claim 14, wherein the at least one foam pad comprises multiple densities at least one of which is denser than the elastic first continuous foam layer.

20-49. (Cancelled)

50. (Currently Amended) The chamois of claim 13 ~~[[58]]~~, wherein the chamois is flexible.

51-56. (Cancelled)

57. (Currently Amended) The chamois of claim 13 ~~[[58]]~~, further comprising the first continuous foam layer coupled to the second cloth layer.

58. (Cancelled)
